

## » Nicotine Treatment & Recovery in Behavioral Health

### Expert Panel Meeting

» February 9, 2022, 12:00pm-1:30pm

#### Attendees:

- Amy
- Jenny
- Jim
- Margaret
- Nadia
- Nirmala
- Reina
- Shane
- Tanya
- Sari Hargand, OHA
- Kaitlyn Lyle, OHA
- Jill, Rede Group, Facilitator
- Beck Wright, Rede Group, Co-facilitator

#### Agenda Items:

- Welcome and Introductions
- Project purpose/grounding
- SUD Survey update
- Population-level data
- Next Steps/ Wrap up

#### Notes (high-level summary):

- I. Regular meeting time confirmed
  - A. 2nd Wednesday of the month at 12-130pm
- II. SUD survey progress
  - A. Survey's finalized (thanks small group for your help!)
  - B. On track to send out in next couple weeks; there may be two/multiple waves of distribution
  - C. Not including NRTs as an incentive to complete the survey at this time, but are exploring logistics to distribute at some point in this project
- III. Population-level data
  - A. Population-level data can allow us to make population-level estimates which we can then use to tell us important things about our population's health
  - B. Exploring multiple population-level data sources for this project: APAC, BRFSS, SHS, Quitline dashboards, NSDUH (see slides for details)

1. Remember that we need to be looking at generational data whenever possible. Each generation has different mental health issues, uses the system differently, and has different treatment approaches.
  - a) It can be hard to get disaggregated data by age, race, lgtbq, ability, etc. due to small numbers, but we need to find ways to understand differences
2. There are a ton of NSDUH indicators. What would be most important for this project?
  - a) Tobacco use vs. smoking: consider what the populations we are looking at are using
  - b) Look at all mental illness, but prioritize serious mental illness if we need to limit it due high rates of use with SMI
  - c) What about anxiety? Hunch that there are very high rates of smoking/tobacco use

**Action Items:**

Item	Responsible party	Timeline
<input type="checkbox"/> Rede will post meeting notes and presentation to Collab space	Rede	W/in one week
<input type="checkbox"/> Distribute survey to Outpatient SUD facilities	Rede	In February
<input type="checkbox"/> Send memo with info about survey and link to workgroup members	Rede	Same time survey is sent out
<input type="checkbox"/> Analyze NSDUH data and bring to expert panel to discuss/interpret	Rede	March or April mtg
