#3: Provide TA to LPHAs to support implementation of OHA Program Element 13, 1.d. & 4.c. and Ballot Measure 108 Community-based Organizations working to diagnose and treat nicotine dependence.

- We planned to start with a TA needs assessment for LPHAs and BM108 grantees; there was a similar needs assessment done with LPHAs and CBOs
- What information can we glean from their assessment? What do we still need to know in order to provide TA?

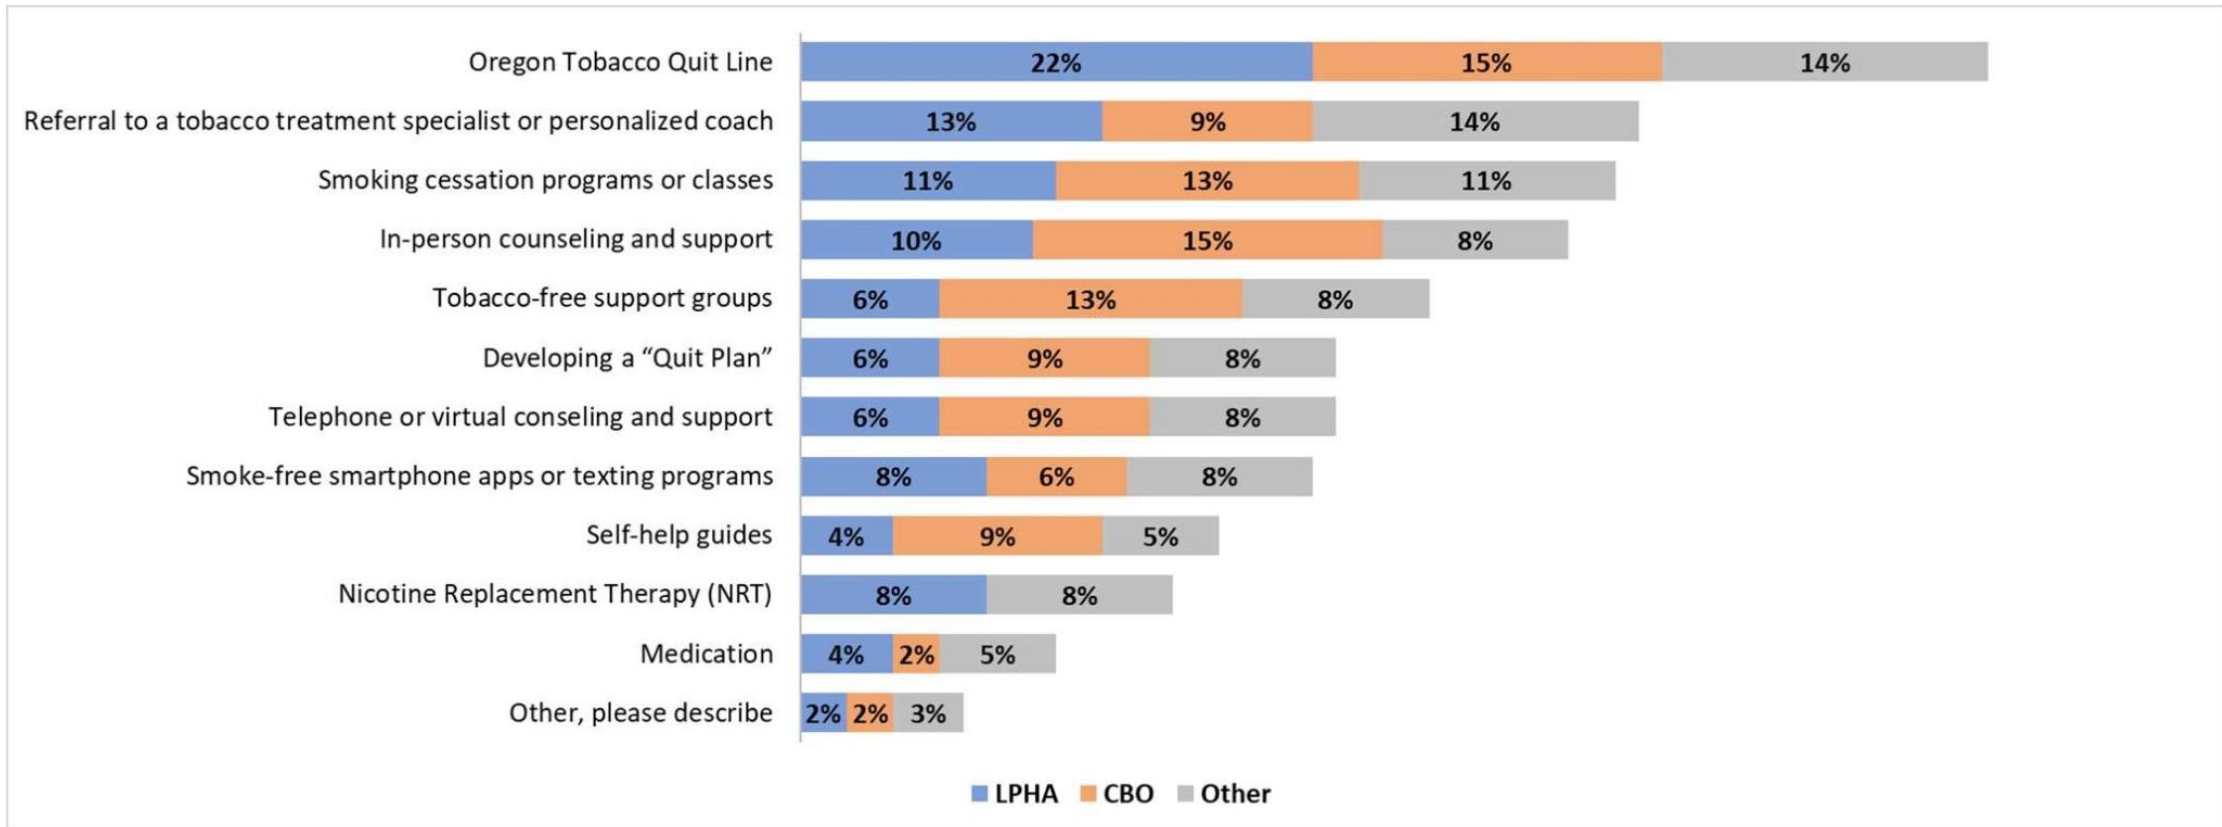

» **TA Needs Assessment**

Purpose: To explore the use of evidence-based cessation strategies and tools, why certain strategies and tools are not utilized, topics organizations are interested in learning about, and learning preferences for partner organizations across Oregon.

23 (/32) LPHAs, 9(/?) CBOs
