One modification for specificity on activity b</p>	<p>3. TOC Feedback: May need an overarching acknowledgment that OHA is developing individual relationships with CBOs to assess strengths and needs; the goal is that OHA provides the specific type of support that will help advance CBOs' work (e.g., logistical support to provide space for CBO sharing and learning, content expertise to share information with CBOs that CBOs can then tailor and disseminate to communities, coalition-building support, and oversight, etc.). Not every CBO needs every type of support and some kinds of support might feel paternalistic to a CBO with deep expertise in one of these areas. That assessment process would also allow for OHA to surface work that CBOs have expertise in that OHA can learn from.</p>
